

# Teaching Tip I

Paulo Santos

They expected to have smartphones and most of them also have laptops.  
A Wi-Fi connection is must but at my university we have.

I have collected some YouTube videos

1- <https://www.youtube.com/channel/UCrRiVfHqBIIvSgKmgnSY66g> (a channel for English pronunciation) They have over 200 English lessons that will help to build vocabulary, develop natural pronunciation, increase grammar accuracy, practice functional language skills and reach conversation fluency.

I use this playlist for gathering new classes with modern information and with this playlist I have many new ideas. From grammar to pronunciation.

2- [https://www.youtube.com/watch?t=1&v=USKrBTvgY\\_s](https://www.youtube.com/watch?t=1&v=USKrBTvgY_s) (this video is very long but with links to different times on the video to parts of the video, very useful)
